

FRANCIS WEB AGENCY · DESIGN SYSTEM

Highlighter.

Build-ready tokens, components, and the app translation. Version 2.1 — one family (Geist), soft radii, linen rhythm. The working companion to the Brand Guide.

V2.1 · 2026 · TOKENS + COMPONENTS + APP

SOURCE: BRAND/REBRAND/SYSTEM-SPEC.MD

SUPERSEDES V1.0 (DEEP-TEAL SYSTEM)

Core ramps — light and dark

TOKEN	LIGHT	DARK	USE
paper	 #FCFCFA	 #131417	Page ground — the brand's dominant field
surface	 #FFFFFF	 #1B1C20	Raised surfaces, cards, popovers
ink	 #17181A	 #F0F0EC	Text, solid buttons, the band (roles invert; names stay semantic)
ink-soft	 #33353A	 #D6D6D1	Solid-button hover
muted	 #55585C	 #B0B3B0	Secondary text, marketing body
meta	 #797D82	 #8C9096	Metadata, labels — not primary small copy
linen	 #F4F2EB	—	Warm alternating section surface + soft card fill (paper → linen → ink rhythm)
line	 #E3E4E1	 #2C2D32	Hairlines — the default separation device
line-strong	 #C9CBCE	 #43454B	Outlined controls, hover emphasis
citrine	 #F2D318	 unchanged	THE accent — sweeps, rules, floods, markers. Never text.

Semantic (status)

STATUS	SOLID	TINT	DARK SOLID	USE
 Paid	#1E7A4E	#E2F1E8	#5BBE8E	Paid, active, passed, online
 Due Soon	#B45D0E	#F8ECDD	#E09A50	Attention — orange, never yellow
 Overdue	#B3362B	#F7E4E2	#E37B72	Failed, overdue, down
 Draft	#3563A4	#E4EBF5	#7FA3D7	Neutral notices, in-progress

Semantic colors never appear in brand moments (heroes, bands, marketing CTAs). Citrine never appears as status.

The scale

ROLE	FACE / WEIGHT	SIZE	NOTES
Display XL	Geist 700	40–74px	Hero only · -0.03em · lh 1.05 · text-wrap: balance
Display	Geist 700	32–40px	Section heads · -0.028em
H3	Geist 600	20px	Card titles · -0.015em
Body L	Geist 400	17–18px	Marketing body · lh 1.6
Body	Geist 400	15–16px	App default · lh 1.55
Small	Geist 400	13–14px	Helper text, secondary cells
Eyebrow / label	Geist 600	10–12px	UPPERCASE · $+0.08\text{em}$
Stat numeral	Geist 700	20–32px	tabular-nums for column alignment
Metadata strip	Geist 600	10–11px	UPPERCASE · $+0.06\text{em}$ · lh 1.9

Utility type in dense UI (one family — mono retired 2026-07-26)

- **Eyebrows/labels:** Geist 600, UPPERCASE, $+0.08\text{em}$, $\geq 10\text{px}$, meta gray.
- **Values** (IDs, dates, money): Geist 600–700 with tabular-nums so columns align; words stay Geist 400. The value/word distinction survives the mono retirement.
- If a screen feels like a terminal, labels are over-tracked or over-uppercased — dial back.

Spacing, radii, borders, elevation

Spacing — 8px base scale

2 · 4 · 8 · 12 · 16 · 24 · 32 · 48 · 64 · 96

- **Marketing:** container 1120px · sections 56–96px · whitespace is a trust signal
- **App:** container ~1440px · 16–24px gutters · sidebar 248px

Radii — softened squares, no pills

- **4px** — chips, tags
- **8px** — buttons, inputs
- **12px** — cards, panels
- **16px** — bands, large media, modals

Borders

- **line** hairline — the default separator
- **line-strong** — outlined controls, hover emphasis

Elevation — flat by conviction

- Flat → hairline border → surface contrast → ink band
- Shadow ONLY on popovers/modals: 0 4PX 16PX RGBA(23,24,26,.08)
- Never on cards — one exception: the featured pricing card (raised, soft ambient shadow, 4px citrine top edge). Exactly one per pricing view.

Motion

- 120–180ms ease, color/border/background only
- Marker motion: the citrine stroke paints via background-size 0→100%, .45s, once per element (hover/scroll) · reduced-motion renders the final painted state
- No bounces, parallax, or scale effects

The solid button speaks **once per view.**

THE THREE TIERS

Start a Conversation

See the Numbers

View the Process

TIER	STYLE	HOVER
Primary	Solid ink · paper text · 8px · one per view	ink-soft
Secondary	1px line-strong outline · ink text	Citrine flood
Text CTA	Ink 600 + 2px citrine underline	Citrine flood

- **Dark mode:** the solid role inverts to paper-with-ink-text; citrine floods unchanged.
- **Inline links:** ink with 1px line-strong underline; hover swaps to 2px citrine. Never color-only.
- **Focus:** 2px ink ring, 2px offset (paper ring on dark). Citrine fails non-text contrast ($\approx 1.6:1$) — never the focus indicator.
- **App mapping:** the page's single main action ("New Invoice") is the solid; toolbar actions are outlined or text tier.

Cards, chips, stats, tables

STATUS CHIPS — 4PX RADIUS · TINT BG + SOLID TEXT · TITLE CASE · GEIST 600

Paid **Due Soon** **Overdue** **Draft**

All sites healthy

TABLES — HAIRLINE SEPARATORS ONLY, NO ZEBRA · GEIST 600 HEADERS · VALUES TABULAR, WORDS 400

INVOICE	CLIENT	ISSUED	STATUS	AMOUNT
INV-0041	Riverbend HVAC	07/02/2026	Paid	\$2,400.00
INV-0043	Delgado & Sons Paving	06/24/2026	Overdue	\$3,120.00

- **Cards:** hairline, 4px, 24–28px padding, flat; optional mono tag; interactive hover = border→ink. No shadows, no lift.
- **Inputs:** 4px, hairline, focus = 2px ink ring; labels Title Case Geist 600 13px; placeholder meta.
- **Eyebrows:** Geist 600 uppercase meta — citrine-free (scarcity).

The ops app in the new system

- **Sidebar:** ink panel, 248px · active item = **3px citrine left rule**, no filled pill · inactive text #BOB3B0
- **Top bar:** paper, hairline bottom · page title Geist 600
- **Casing rules carry over unchanged:** Title Case chrome, sentence-case prose & messages
- **Charts:** ink line on paper · citrine marks only THE highlighted series/point · semantic colors for status series · grid = line
- **Dark mode is first-class in the app** (marketing ships light-only). The ink sidebar is the continuity element — it doesn't change between themes.

Migration map — old system → new

DEEP-TEAL SYSTEM (V1)	HIGHLIGHTER SYSTEM (V2)
teal-900 #073A34 bands	Ink #17181A band — max one per page
action #0B7F70 buttons/links	Ink solid / citrine-marked text CTAs
Fraunces display / Inter body	Geist 700 / Geist 400–600
JetBrains Mono eyebrows	Tracked-uppercase Geist 600 (mono retired)
Sand #F1EEE7 blocks	Retired — hairlines + whitespace do the rhythm
Pill radii · focus #25BBA4	8/12/16 softened squares · 2px ink focus ring
Teal app-icon tile	Citrine tile, ink mark (proposed)

Adoption order: marketing site (WEBSITE/, own repo/rules) → ops app + portal → PandaDoc/PDF templates.
